

“Please provide any data available on current tenants of the Metropolitan and whether they are relocating from elsewhere within Howard County or from outside Howard County.”

The data that we have is through 10/20/15 and is based on the 278 occupied units (73%). It is based on the information from the primary occupant (generally the person who has signed the lease).

- In City (referring to Columbia only, not all of Howard County): 35 primary occupants (12.6%)
- In State (moving from another location Maryland, but outside of Columbia): 134 primary occupants (48.2%)
- Out of State: 106 primary occupants (38.1%)
- Unknown: 3 primary occupants (1.1%)

Unfortunately we do not have data to know how many of those who are “In State” are Howard County residents vs. non-Howard County residents.
