2019 APR -1 AM 2:29

4. Please provide a brief statement concerning the reason(s) the requested amendment(s) to the Zoning Regulations is (are) being proposed Glenelg Country School is a private school located in western Howard County that was founded in 1954 with 35 students. Today, GCS enrolls over 750 students. In BA Case No. 16-034 C, GCS presented an application for the enlargement and modification of a previously-approved conditional use (special exception). A portion of the newly-proposed conditional use area included the land area of 22 fee-simple pipestem strips that are owned by various protesting neighbors. In 2007 and 2008, GCS obtained the written consent of these protesting neighbors in an easement agreement. This easement agreement, which was the consent required in this case, was submitted along with the application. The protesting neighbors objected to the inclusion of the land area under the 22 fee-simple pipestems. The Hearing Examiner ultimately denied BA Case No. 16-034C holding that the proffered consent was not adequate. The

purpose of the instant zoning regulation amendment is to require the Hearing Authority to decide the land use and zoning issues that are presented by applicants and not avoid making these determinations citing legal issues that are within the sole province of the courts. Administering the conditional use regulations for private schools to require a specific form of consent to be submitted with the application provides the protesting neighbors with the ability to prevent any future expansion/modification of GCS and condemns GCS from being able to sustain the institution for the future.

Petition to Amend the Zoning Regulations of Howard County

Supplemental Statement

Response to Section 5

The proposed amendments will be in harmony with PlanHoward 2030. Glenelg Country School (“GCS”) is located in the Rural West and is zoned RR-DEO. The County established a Rural West Advisory Committee as part of PlanHoward 2030 “to be a sounding board on various land use issues in the Rural West,” including conditional uses. PlanHoward 2030, p. 34. “Conditional uses . . . are presumed to be appropriate in the zoning districts where they are allowed.” *Id.* “Conditional Uses are authorized in specified zoning districts based on the presumption that they are generally appropriate and compatible in the specified districts.” Howard County Zoning Regulations § 131.0.A.

Implementing Action b. to Policy 4.5 of PlanHoward 2030 is to review use designations, including conditional uses, in the Rural West, and determine if amendments are necessary. PlanHoward 2030, p. 36. PlanHoward 2030 called for “[a] thorough review of the zoning regulations during Comprehensive Rezoning” to determine whether “the permitted by right/permitted by permit/permitted by conditional use structure” needed an overhaul. *Id.* at p. 34. “The uses themselves should also be reviewed to determine if there are additional uses that could be added, or if there are some uses that are no longer relevant and could be deleted.” *Id.*

Additionally, beyond the context of the Rural West, Policy 10.4 of PlanHoward 2030 is to “Review and update all County development regulations to respond to County General Plan development goals and changing market conditions, and to improve the efficiency of the County’s review process.” *Id.* at p. 143. Implementing Action c. to Policy 10.4 similarly proposes to “Review and, as appropriate, amend the County’s conditional use regulations to reflect updated land use policies.”

PlanHoward 2030 was adopted on July 26, 2012. During the subsequent Comprehensive Rezoning process in 2013, the County’s Department of Planning and Zoning and the County Council thoroughly reviewed the County’s zoning map and regulations as called for by PlanHoward 2030. Given GCS’s extensive history, student enrollment levels, and stature in the community, it is undeniable that the County Council was aware of GCS’ RR-DEO zoning and its approved Private Academic School conditional use at the time of the 2013 Comprehensive Rezoning.

As part of the 2013 Comprehensive Rezoning, the County Council made the decision to keep the Private Academic School use a conditional use in the RR-DEO zoning district. Doing so was an acknowledgment by the County Council that GCS is an appropriate use and is in harmony with PlanHoward 2030; otherwise, the Council would have expressly deleted this conditional use and prohibited private academic schools in the RR-DEO district. Approving this Petition is necessary to ensure that GCS can continue serving the community and sustaining its programs into the future as the County Council clearly intended and in harmony with PlanHoward 2030.

Response to Section 6

The proposed amendments will be in harmony with the legislative intent provided in Section 100.0.A of the Zoning Regulations. These amendments will promote the health, safety, and welfare of the community by allowing GCS to continue its work of serving hundreds of families in the community every year. Furthermore, one of the policy goals in furtherance of promoting the health, safety, and welfare is to “provide a guide . . . for private enterprise in undertaking development, investment and other economic activity relating to uses of land and structures throughout the County.” Howard County Zoning Regulations § 100.0.A.4. GCS has been growing and evolving to meet the needs of the community for approximately 65 years, and the proposed amendments are necessary to allow GCS to continue undertaking investment and development to serve the County’s residents, including by permitting a child day care center/nursery school. Approving the requested amendments will not adversely affect the community.

Conversely, without the approval of the instant Petition, the welfare of the community will be negatively affected. If GCS is prohibited from making any future expansions and modifications to its school and program, GCS will be unable to sustain its institution and will further be unable to continue serving the community as it has for decades.

The proposed amendments regarding setbacks in Section 131.0.D will also further the purposes of Section 100.0.A. Conditional uses are presumed to be generally appropriate and compatible in their zoning districts as provided in Zoning Regulations Section 131.0.A. In any context other than conditional uses, the Hearing Authority is authorized to grant variances to the setback requirements imposed by the Zoning Regulations in accordance with Section 130.0.B. Allowing the Hearing Authority to make those same determinations for setbacks imposed by the specific conditional use criteria of Section 131.0.N and Section 131.0.O would preserve and promote the health, safety, and welfare of the community by ensuring that appropriate and compatible developments are not prevented merely because of some unique physical condition of the subject property (for which a variance would otherwise be available) or because the petitioner happens to own two adjoining lots (creating internal setbacks) instead of one combined lot.

As intended by Section 100.0.A, the proposed zoning regulation amendments would allow additional conditional use developments in furtherance of the most beneficial and convenient relationships among the residential, non-residential, and public areas of the County with specific consideration of the conditional use’s suitability at its particular location. The instant amendments would also better guide the orderly growth and development of the County in accordance with Section 100.0.A.2, again by ensuring that appropriate and compatible conditional use developments are not foreclosed simply because of unique property conditions.

Response to Section 7

The proposed amendments will benefit the public by allowing GCS to continue to serve the Howard County community. As described previously in this Petition, GCS currently enrolls over 750 students. These students come from across the County, reducing enrollment figures at County schools that are over capacity. In order for GCS to continue serving its students and the public into the future, approval of the instant Petition is necessary.

Response to Section 8

The proposed amendments have the potential of affecting all conditional use applications. The amendments pertaining to setbacks would merely bring conditional uses closer in line with other uses that a person may make of his or her property. For conditional uses that are compatible with the surrounding neighborhood and would be beneficial to the area, little justification exists to deny such uses on the mere basis of a setback not being able to be satisfied. This is especially true when the setback is from the petitioner's own property or when the variance criteria of Section 130.0.B would otherwise be satisfied.

Requiring a setback from property that a petitioner owns or has an easement over does not lead to the most beneficial arrangement of land uses. Instead, a petitioner is forced to comply with setback requirements for no reason other than owning multiple separate lots instead of one combined lot. A conditional use petitioner's decision to locate a use or structure up to an internal lot line should be the petitioner's alone, given that such decision will have no impact on anyone other than that petitioner. If the petitioner ever chooses to sell or convey one lot separate and apart from the other, the purchaser will be making an informed decision and choosing to acquire the lot with knowledge of the reduced setback such that the purchaser will likewise not be adversely affected.

Furthermore, granting the Hearing Authority the ability to consider unique physical conditions affecting a conditional use property will also have minimal impact. The variance criteria require the Hearing Authority to make specific findings, including that the variance "will not alter the essential character of the neighborhood or district in which the lot is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare." Given the considerations required by Section 130.0.B, these proposed amendments will provide more flexibility to the Hearing Authority to approve compatible and beneficial developments while still ensuring that any reduced setbacks do not create substantial negative effects.

Provided that a private academic school satisfies all of the conditional use criteria of Section 131.0.N.48, a child day care center and/or nursery school is an appropriate accessory use in connection with that school. For a petitioner who would like to more fully serve the community by also providing a child day care center or nursery school, this proposed amendment would allow an incidental and subordinate day care or nursery school without forcing the petitioner to seek a second, separate conditional use approval for such accessory use.

The impact of the proposed amendment pertaining to owner authorizations will also be minimal. Currently, the Department of Planning and Zoning's form conditional use petition requires the property owner's authorization. That requirement, however, is not presently codified in the Zoning Regulations as it would be with the approval of this amendment.

Additionally, if a conditional use petitioner has obtained a recorded easement or similar recorded instrument over certain property, such a formal instrument should be sufficient to serve as the necessary authorization. A petitioner will almost certainly have relied upon such recorded instrument in planning for the development of such petitioner's property. The owner of a property, after having granted a conditional use petitioner an easement, should not be able to change such

owner's mind and to completely preclude the conditional use application from being heard and considered. The owner who granted the easement should, and would, still have the right to contest the use based on the conditional use criteria contained within Section 131.0. The owner could also seek to enforce the terms of the recorded instrument in court or any other appropriate forum. A conditional use hearing, however, is not the appropriate forum. This proposed zoning regulation amendment would ensure that after having been granted the benefit of an easement, a conditional use petitioner could rely upon such grant and could proceed to have its conditional use petition heard and decided on the merits.

Petition to Amend the Zoning Regulations of Howard County
