

# School Zone Speed Camera Report to the County Council

## Give kids a brake.

Slow down in school zones. Speed camera enforced.

**Howard County Police Department**

Gregory J. Der, Chief of Police

March 2025

## Executive Summary

The Howard County Department of Police has successfully operated a Speed Camera Program in school zones since enabling legislation was passed in 2011. Our program was designed to provide the police department with another tool to address the community's number one complaint: speeding on residential and school zone roadways. You will find in this report that our program continues to successfully provide additional support to our traditional speed enforcement efforts.

Our research shows that the program has reduced speeds on ninety-two percent (92%) of the school zone roadways in 2024 when compared to studies completed prior to the start of our program. Collisions in School Zones have decreased twenty-one (21%) percent when compared to the pre-enforcement studies completed in 2009-2010. The program is having the effect we have worked for from the beginning. Drivers are changing their behaviors and roads around schools are getting safer.

In 2024, the program resulted in 41,290 speeding citations being mailed to vehicle owners, a thirty-five (35%) percent increase over 2023. The program has been self-funded since it was launched in 2011. In Fiscal Year 2024, the program revenue exceeded operating expenditures by \$34,959.00. Any funds collected over the cost of running the program are required by law to be spent solely for public safety purposes, including pedestrian safety programs.

The following report is an analysis that addresses all the reporting requirements outlined in the Howard County Code. I am confident that you will agree that the Speed Camera Program continues to be effective, efficient, fair, and a true benefit to safety in our school zones.

Gregory, J. Der  
Chief of Police

## Program Overview:

Speed Camera legislation was introduced before the Howard County Council in the spring of 2011. The legislation authorized the Department of Police to use speed monitoring systems in school zones. The overall goal of the Speed Camera Program was to change driver behavior and encourage them to slow down.

School zones within Howard County are established in accordance with Section 21-803.1 of the Transportation Article of the Annotated Code of Maryland which defines a school zone as any roadway segment within up to a half-mile radius of an eligible school. School zones on county roads are approved by the Department of Public Works if that part of the road has a reasonable nexus or proximity to a school or school walking route.

In May 2011, the County Council passed Council Bill 13-2011, authorizing the use of Speed Cameras in Howard County. A 30-day warning period began on October 15, 2011, and the program began issuing civil citations on November 16, 2011 to the owners of vehicles who were traveling 12 mph or greater above the posted speed limit.

The Howard County program began with two (2) manned mobile systems (vans), which do not require roadway improvements or roadway construction, resulting in no inconvenience to the public. Civilian members of the police department who are certified to operate the camera system and equipment are permitted to staff the speed camera vans.

At the start of the 2013-2014 school year, two (2) additional speed detection instruments were added. Prior to the start of the 2019-2020 school year, two (2) additional speed detection instruments were added. In March of 2024 we added an additional detection system as a Portable Cabinet Unit. (PCU). These instruments, called Portable Camera Units (are housed in cabinets that are bolted to concrete pads. The PCUs are used in school zones where the road configurations make it challenging to safely use the speed camera vans. The speed camera vans and PCUs equal a total of seven (7) speed detection instruments that are rotated throughout the county school zones.

School zone speed enforcement takes place Monday through Friday from 6 a.m. to 8 p.m., in accordance with Maryland State Law, Transportation Article 21-809 and Howard County Code 21.600. Enforcement efforts are solely conducted in school zones where enforcement activities take place. During the summer break, enforcement efforts are concentrated at schools that host summer school and recreational programs.

Every designated school zone is posted with advanced warning notification consisting of a "School Zone" sign, a sign displaying the speed limit, and a "Photo Enforced" sign. In addition, at least one week in advance, lists of roadways where the speed camera units are deployed are posted on the Howard County Police Department's website. The website also contains a list of all the school zone roadways and areas where automated enforcement can take place.

The program is designed as an additional tool to supplement the efforts of patrol officers to slow down speeding drivers. The efforts of the Speed Camera Program in 2024 resulted in two hundred and forty-eight (248) days of enforcement, totaling 21,521.90 hours and 41,290 speeding violations mailed. It is clear the Speed Camera Program allows us to focus on speed enforcement in school zones in a way we simply otherwise could not.

These enforcement efforts have resulted in a lowering of the 85<sup>th</sup> percentile speed on ninety-two percent (92%) of the school zone roadways since the program began in October 2011. (The 85<sup>th</sup> Percentile Speed is the speed in which 85 percent of the vehicles are travelling at or below that number. For example, if the 85<sup>th</sup> Percentile Speed is 42 MPH, 85 percent of the vehicles are travelling at that speed or less.)

A more complete look at our enforcement efforts is provided in Section 1 and **Appendix A**.

## **Contents**

The following report includes eight (8) sections as required in Howard County Code, *Title 21- Traffic Control and Transportation, Subtitle 6 Speed Camera Monitoring Systems*.

- Section 1.** Enforcement Activity to Include Location and Frequency of the Placement of Speed Monitoring Systems
- Section 2.** Citation Information to include Violations Photographed, Rejected, Issued, Appealed and Final Adjudication
- Section 3.** Collision Information, a Comparison of Collisions Before and After Enforcement
- Section 4.** Updated Speed Surveys
- Section 5.** Financial Information to include Program Costs, Vendors Fees, Total Fines Collected, Excess Fines, Use of Excess Fines
- Section 6.** List of School Zones highlighting any changes
- Section 7.** Major Problems / Irregularities
- Section 8.** Program Recommendations
- Appendix A.** Client Summary Report by Location
- Appendix B.** Speed Surveys
- Appendix C.** Enforcement Location Codes

## **Section 1. Enforcement Activity to Include Locations/Frequency of Placement**

Enforcement efforts were conducted at 78 public schools and 12 private schools. There are a total of two hundred and eleven (211) enforcement locations. The complete 2024 enforcement listing, to include the frequency on each roadway, is available in **Appendix A**.—Enforcement efforts are conducted on School Zone roads and our systems are routinely rotated. School Zones with more significant speeding problems as determined by surveys, citizen complaints, high number of violations and/or extremely high speeds may result in a location receiving additional enforcement.

**The locations where the fastest speeds occurred during 2024 are listed below:**

110 / 40 – Ten Oaks Road - St. Louis School  
81 / 25 – Freetown Road – Atholton High School  
89 / 35 – Rogers Ave – Hollifield Station Elementary School  
83 / 30 – Old Waterloo Road – Deep Run Elementary School  
80 / 35 – Centennial Lane – Centennial High School  
77 / 35 – Montgomery Road – Rockburn Elementary School  
70 / 30 – Mission Road – Guilford Park High School  
73 / 35 - Whiskey Bottom Road – Phillips School  
72 / 35 – Scaggsville Road – Reservoir High School  
66 / 30 – Old Columbia Road – Columbia Academy  
81 / 45 – MD Rt. 97 – Glenwood Middle School  
65 / 35 – Burntwoods Road – Glenelg High School

*Citations were issued for all the above violations.* It should be noted there is only 1 pre-determined fine for all speeds under this current program. The set fine does not change if the violator is traveling 12 MPH over the speed limit or 70 MPH over the speed limit, which was cited during this reporting period.

## Section 2. Citation Information to Include Violations Photographed, Rejected, Issued

In 2024, there were 45,175 violations recorded by our detection equipment; however, only 41,290 citations were mailed. The difference in the number of violations recorded and the number of citations mailed is due to our multi-level review process and the rejection of violations based upon our strict quality-control measures. The number of violations rejected and the reason for each is documented in **Appendix A**.

Violations Recorded	45,175
Violations Rejected	3,550
Violations Post-Print Rejected	335
Total Violations Rejected	3,885
Citations Mailed	41,290

The Howard County Department of Police conduct three (3) reviews of potential violations prior to them being sent to the vendor for printing. The first review is called *Pre-Approval* and is completed by a police civilian employee. The second review is called *Approval* and must be completed by a sworn police officer in accordance with the law.

During the review process, we rejected 3,550 possible violations for reasons including:

- Car Obstructed – View of vehicle is obstructed by another vehicle
- Clarity of Plate – Clarity of plate is not satisfactory for issuance
- Dark Environment – Environment is too dark to distinguish vehicle
- Plate Obstructed- Part or all plate characters obstructed
- Vehicle Match Failure – MVA return does not match vehicle type in photo
- DMV No Hit – MVA information return did not occur within the 14 or 30-day time frame
- Stationary Object Visible – Fixed Object is not visible in both photographs
- Plate Damage – Damage or degraded characters make them illegible
- No Plate – Registration Plate not visible on violation photos
- Glare on Plate – excessive reflective glare on the registration plate

The third review takes place during our Post-Print Review and Rejection process. During that process, a police employee reviews each paper citation to ensure that it meets our strict criteria for mailing, even if the electronic image was acceptable.

During the Post-Print Review process, we rejected three hundred thirty-five (335) printed citations for reasons including:

- unclear registration plate
- photos were too dark
- photos were generally unclear
- registration plate was obstructed

Even though these three hundred thirty-five (335) citations were acceptable when viewed on the computer due to the ability to enlarge the photographs, they were rejected upon reviewing the final printed product.

Emergency vehicle operators are issued citations if they are detected exceeding the threshold speed and were not on emergency calls. In total, eighty-seven (87) emergency vehicles (fire and police, including those from other jurisdictions) were detected speeding; a two (2) percent decrease over 2023. Of those, thirty-three (33) were on emergency calls; the remaining fifty-four (54) cases resulted in citations being issued to and paid by the operator. Twenty-nine (29) non-emergency government vehicles (Howard County, Federal and other jurisdictions) were detected exceeding the threshold speed resulting in citations being issued. This resulted in a four percent (4%), and the fines associated with these citations were paid by the vehicle operator.

School buses, which are owned by contractors, received twenty-three (23) citations during this reporting period; a thirty-six (36) percent increase over 2023. These citations were paid by the bus contractor or the bus operator. Quarterly, the HCPSS Director of Student Transportation is provided the names of the Bus Companies receiving citations.

Of the 41,290 vehicle owners who received citations in 2024, twelve (12) chose to appear in court.

### Cases Adjudicated in Court 2024

Month	Cases Scheduled	Guilty	Not Guilty	% Guilty	% Not Guilty
January	0	n/a	n/a	n/a	n/a
February	0	n/a	n/a	n/a	n/a
March	0	n/a	n/a	n/a	n/a
April	0	n/a	n/a	n/a	n/a
May	0	n/a	n/a	n/a	n/a
June	0	n/a	n/a	n/a	n/a
July	2	2	0	100%	0%
August	0	n/a	n/a	n/a	n/a

<b>2024 Totals</b>	<b>12</b>	<b>12</b>	<b>0</b>	<b>100%</b>	<b>0%</b>

*\*Judges have used some judicial discretion in hearing these cases and in the past made findings of "not guilty". These findings did not involve questions or concerns about the validity of the equipment, its operation or the program.*

### Section 3. Collision Information/Comparison

In 2009-2010, a 5-year study of collisions in Howard County school zones was conducted for the consideration of automated speed cameras. The study showed that Howard County averaged one hundred and sixty-two (162) collisions per year, including fourteen (14) personal injury collisions and one hundred and forty-eight (148) property damage collisions. A recent review of the 2024 school zone collisions shows a total of one hundred twenty-seven (127) collisions, a twenty-one (21) percent decrease from the initial 5-year study. Of those one hundred twenty-seven (127) collisions, eleven (11) were personal injury collisions and one hundred sixteen (116) were property damage collisions.

### Section 4. Updated Speed Surveys

The initial school zone speed studies were conducted in 2009-2010. School zone speed studies for the current school year were completed in the areas where enforcement was conducted. These studies show that our enforcement efforts have resulted in a lowering of the 85<sup>th</sup> percentile speed on ninety-two percent (92%) of the studied school zone roadway enforcement locations, by as much as twenty-three (23) MPH at one location.

The results of the speed surveys are in **Appendix B** and contain both the pre-enforcement and post-enforcement study information.

Both the pre-enforcement and post-enforcement surveys were conducted in school zones for a 48-hour period when school was in session for both days.

### Section 5. Financial Information to Include Program Costs

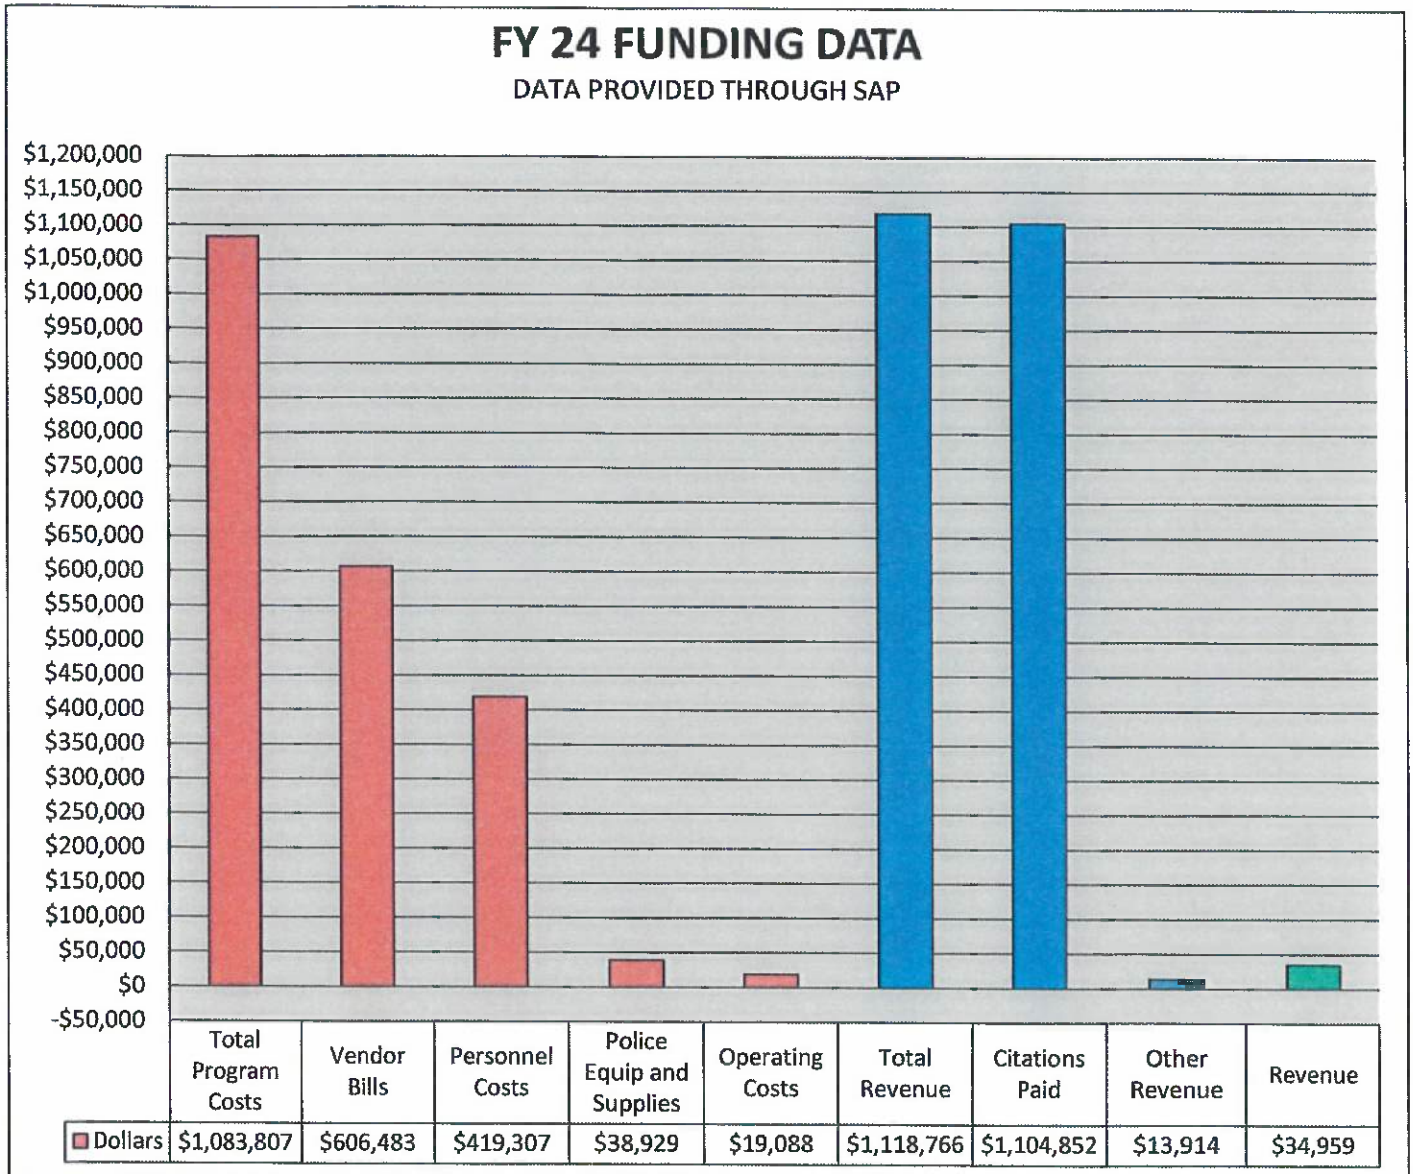

Any funds collected over program costs are required by law to be spent solely for public safety purposes.

During Fiscal Year 2024, the Speed Camera Program cost a total of \$1,083,807.00 to operate which included \$606,483.00 in vendor billing, \$419,307.00 in personnel costs, \$38,929.00 in equipment and supplies, and \$19,088.00 in general operating costs.

The total program revenue was \$1,118,766.00 which included \$1,104,852.00 in fines collected from citations and \$13,914.00 in fees paid by the Charles County Sheriff's Office. This year, program revenue exceeded operating expenditures by \$34,959.00.

During the year there was an operating transfer to DPW of \$200,000.00 for crosswalk improvements from the Speed Camera accrued revenue account.

Charles County Sheriff's Office is our Speed Camera Program Partner. Charles County personnel conduct their own Pre-Approval and Approval of possible violations and send them to the vendor to be printed. The printed citations are then reviewed by a Howard County Police civilian employee for the Post-Print Rejection Process. The Howard County Speed Camera Program Administrator also acts as the liaison between Charles County and the vendor. The Charles County Sheriff's Office is charged a monthly fee for the services provided by Howard County Police personnel. (Shown as 'Other Revenue' above).

## Section 6. List of School Zones and Any Changes

During 2024, no new school zones were added.

See **Appendix C** for a complete list of the School Zone Enforcement Locations.

## Section 7. Major Problems or Irregularities

The program did not encounter any major problems in 2024.

Minimal public opposition: During 2024, overt driver opposition to the program continued to diminish to the occasional driver yelling obscenities at the van operator. There were no incidents of objects being thrown at the vans or damage inflicted upon the cabinets.

In 2014, Maryland Legislators amended the Speed Camera Legislation and required that each jurisdiction designate an official employee to investigate and respond to questions or concerns about the local jurisdiction's speed monitoring system program. This local designee may not be involved in any review during the citation processing. The Chief of Police determined that our local designee, "Ombudsman", shall be the Professional Standards / Quality Assurance Division / Staff Inspections Section Sergeant.

This legislation became effective in 2015 and that year the Ombudsman was asked in writing to review five (5) citations. In 2024, the Ombudsman was asked to review one (1) citation. The complainant did not feel the enforcement location was appropriate. A review of the location revealed no issues.

## Section 8. Program Recommendations

The Howard County Speed Camera program continues to demonstrate success by reducing speeds and collisions in school zones compared to the start of the program. Driver opposition and inquiries to the *Ombudsman* have reduced significantly. The days and hours of documented enforcement show that this program is a dedicated resource which truly enhances our ability to improve safety in school zones.

The program provides an additional tool that supplements the efforts of patrol officers in furtherance of one of our department goals: ***Save Lives, Prevent Collisions and Facilitate the Efficient Movement of Vehicular and Pedestrian Traffic.***

The County Code authorizes the use of up to eight (8) speed monitoring systems. In 2013, the program expanded from two (2) mobile detection units to four (4) units with the addition of two (2) PCUs. In 2019, the program added two (2) PCUs bringing our total detection system number to six (6). In 2024 we added another detection system, bringing our current total detection system number to seven (7). The seven (7) systems assist in answering community requests for additional enforcement time.

Annual reviews of our enforcement locations continue to identify school zones not conducive for van operations, however, would benefit from the use of a PCU. The Speed Camera Program will continue to use the seven (7) existing speed monitoring systems and will reassess our enforcement locations in attempts to gain further compliance on roadways with multiple violations and higher speeds. Additionally, we will be exploring the possibility of adding multiple PCU pad locations to further our compliance efforts.

The Howard County Department of Police continues to believe that the Howard County Speed Camera Program serves as a model for other jurisdictions.

# APPENDIX A

## Client Summary Report By Location

This appendix consists of a **Client Summary Report By Location** for each School Zone in which enforcement was conducted. It includes the number of days/hours of enforcement, the total number of Events, the number of possible violations, the number of citations issued, and the number of and reasons why Events did not become possible violations. It also details the number of rejections and the reason for each.

Within the **Client Summary Report By Location**, the following terms/headings have the listed meaning:

**Location** – The location enforcement took place. The preceding number is simply a numerical value given to each location used to reference data for that location.

**Events** – The total number of photographs taken at a particular location. These can be violation photographs or testing photographs. Our technicians conduct a self-test of the detection instruments almost hourly. At the end of each test, a Test Shot or Next Vehicle Photo is taken. Test shots are also taken during the initial setup of the instruments and throughout the day to monitor the “F- Stop” settings on the cameras making sure that the proper amount of light is available thru the lens.

**Possible Violations** – Total number of Events minus the Test Shots.

**Violations Mailed** – The number of citations mailed obtained from subtracting the number of ACS & Police Rejects from the number of Possible Violations.

**In Process** – The number of possible violations still in the processing phase when the report was generated.

**ACS & Police Rejects** – Total number of violations that were rejected by either the vendor or the police reviewers.

Rejected violations fall into one of two categories – Controllable and Uncontrollable. Controllable rejects are related to vendor / equipment issues. Uncontrollable rejects include all of the other reasons that a possible violation would be rejected; such as an unclear or obstructed tag. Since Howard County Police personnel set up, test, and operate the system, the majority of the rejected violations fall under Uncontrollable category.

**Violations Mailed** – The status and number of mailed citations at each level of the process.

**1st Notice Mailed** – The initial citation.

**2nd Notice Mailed** – A late notice mailed 46 days after the violation occurred if the citation is unpaid.

**3<sup>rd</sup> Notice** – This is a Notice mailed after day 81 if the citation is unpaid. It notifies the owner that MVA has been contacted and the registration plate has been *Flagged* due to non-payment. Registration renewals cannot take place until the citation has been paid. (MVA also sends the owner a letter which notifies the owner of the Flag). (Maryland Registration Plates only)

**4<sup>th</sup> Notice** – This is the Final Notice mailed to the vehicle owner at day 106 – warning them of legal action on unpaid citations.
