Conditional Use Petition

Conditional Use Petition Request

Conditional Use Category:

Child Day Care Centers and Nursery Schools, Day Treatment and Care Facilities

Conditional Use Section Number:

131.0.N.13

Proposed Use:

Proposed hours of operation are 8:00 AM–3:00 PM for approximately 30 students. Persons' First, Inc. will provide Day Habilitation Services focused on social, daily living, employment, and community engagement skills based on each individual's Person-Centered Plan. Space use includes two classrooms for instruction and life skills activities, one classroom for team meetings and confidential planning, and the ACS Room for office space, secure records storage, and meetings.

County Council District: Council District 5 - David Yungmann

Total Site Area: 8.97

Conditional Use Area: 2,075 SF

Subdivision Name (If applicable):

Site Development Plan (If applicable):

Plat Number and recordation date (If applicable):

Conditional Use Petition General Criteria

The proposed Conditional Use plan will be in harmony with the land uses and policies in the Howard County General Plan which can be related to the proposed use:

The proposed day treatment facility at 3291 St. Johns Lane is compatible with surrounding institutional and residential uses and supports Howard County's goals for community-serving and health-oriented facilities.

The nature and intensity of the use, the size of the site in relation to the use, and the location of the site with respect to streets giving access to the site are such that the overall intensity and scale of the use(s) are appropriate for the site:

The day treatment facility will occupy an existing institutional building on an 8.97-acre site, providing ample space for operations, parking, and access. The site's location along St. Johns Lane ensures safe ingress and egress, and the use's scale and intensity are consistent with surrounding institutional and residential properties.

The impact of adverse effects such as, but not limited to, noise, dust, fumes, odors, intensity of lighting, vibrations, hazards or other physical conditions will be greater at the proposed site than it would generally be elsewhere in the same zoning district or other similar zoning districts:

The proposed day treatment facility will operate within an existing institutional building, and its activities are indoor and community-oriented. As such, there will be minimal noise, odors, dust, or other adverse effects, and the impact on surrounding properties will be no greater than that of similar institutional or community uses in the same zoning district.

The location, nature and height of structures, walls or fences, and the nature and extent of the existing and/or proposed landscaping on the site are such that the use will not hinder or discourage the development and/or use of adjacent land and structures more at the subject site than it would generally elsewhere in the same zoning district or other similar zoning districts:

The proposed day treatment facility will occupy three rooms within the existing institutional building. The building height, existing walls and landscaping provide adequate screening and buffers, ensuring the use will not hinder or discourage the development or use of adjacent properties.

The number of parking spaces will be appropriate to serve the particular use. Parking areas, loading areas, driveways and refuse areas will be appropriately located and buffered or screened from public roads and residential uses to minimize adverse impacts on adjacent properties:

The proposed day treatment facility will occupy three rooms within the existing institutional building, which has ample on-site parking, driveways, and loading areas to accommodate the use. These areas are appropriately located and screened, ensuring minimal impact on adjacent properties and public roads.

The ingress and egress drives will provide safe access with adequate sight distance, based on actual conditions, and with adequate acceleration and deceleration lanes where appropriate. For proposed Conditional Use sites which have driveway access that is shared with other residential properties, the proposed Conditional Use will not adversely impact the convenience or safety of shared use of the driveway:

The day treatment facility will utilize the existing ingress and egress drives to the property, which provide safe access and adequate sight distance. Traffic associated with the facility will be minimal, and the use will not adversely impact the convenience or safety of any shared driveway access with adjacent residential properties.

The proposed use will not have a greater potential for adversely impacting environmentally sensitive areas in the vicinity than elsewhere:

The proposed day treatment facility will occupy three rooms within the existing institutional building, with no new construction or site disturbance. As a result, the use will not have a greater potential for adversely impacting environmentally sensitive areas than other similar institutional or community uses in the vicinity.

The proposed use will not have a greater potential for diminishing the character and significance of historic sites in the vicinity than elsewhere:

The proposed day treatment facility will occupy three rooms within the existing institutional building, with no exterior alterations or construction. The use will not have a greater potential for diminishing the character or significance of nearby historic sites than other similar institutional or community uses in the vicinity.

Prior Petition

Does this Property have a prior Conditional Use or Special Exception for this use?

No

Prior Zoning case number/s

Has the petitioner completed the required Pre-Submission Community Meeting?

Yes

Date of Pre-Submission meeting

03/09/2026

Does this property location OR Conditional Use type require Design Advisory Panel (DAP) review?

No

If yes, please explain

Is the Property on the Howard County Historic list or otherwise require Advisory comments from the Historic Preservation Commission (HPC)?

No

If yes, please explain
